The total 1977 budget for the Omnisphere Earth-Space Center is \$84,448. For 1977, this budget is shown as a trust fund budget (PLFB) rather than a general fund budget (AAFB), as was the case in 1976. This was done primarily to avoid having sales tax revenues from admission tickets in the general fund. Another change from 1976, is that revenues are no longer shown as a reimbursement. Projected revenues for 1977 are listed on the proceeding page. The 1976 general fund budget is shown on this page for comparison purposes.

Personal Services increased \$4,299 due to merit salary increases and the salary improvement. During 1976 the Planetarium Director was reclassified to an Omnisphere Director, and the Administrative Supervisor was reclassified to an Omnisphere Technician (P.T. 25%).

Contractual Services increased \$5,915 due to an increase for utilities in Account 210 and the addition of a maintenance contract for the star projector in Account 295.

The Capital Outlay allocation of \$5,900 provides for 1 desk, 2 chairs, slide files, 13 special effect projectors, telescope making equipment, 1 table saw, items for a scientific library, phonograph records, and educational film.
